SKILLS: AWS, Docker, SQL, Terraform, Kubernetes

EXPERIENCE:

* Platform Engineer, Parity Partners (2023 - Present). Introduced CI/CD, trunk-based development and automated tests; deploys went from weekly to daily. Designed and ran AWS/SQL microservices for Sterling Mutual's payments and core-banking platform, owning them from design to production. Hardened security access control for Sterling Mutual, including audit logging and secrets management. Drove a migration to Kubernetes with zero downtime across 500k+ daily orders. Mentored 4 engineers and ran internal guild sessions on AWS.

* Platform Engineer, Civic Digital Agency (2020 - 2023). Partnered with the Civic Digital Agency product team to shape the roadmap and de-risk delivery. Hardened security and access control for Civic Digital Agency, including audit logging and secrets management. Cut p99 latency by 20% by reworking the Terraform layer and adding caching and async processing. Introduced CI/CD, trunk-based development and automated tests; deploys went from weekly to daily.

* Platform Engineer, CityConnect (2018 - 2020). Mentored 2 engineers and ran internal guild sessions on SQL. Partnered with the CityConnect product team to shape the roadmap and de-risk delivery. Hardened security and access control for CityConnect, including audit logging and secrets management. Built infrastructure-as-code and observability (dashboards, alerts, SLOs) for the platform.

PROJECTS: Scaled the onboarding service using Docker and AWS (sub-100ms p99). Hardened the payments service using Terraform and AWS (1M+ users).
