

Deepak Shetty | Principal Consultant | Delhi NCR

deepak.shetty@paritypartners.example

Principal Consultant with 21+ years building frontend systems across citizen-facing digital services and clinical data platforms. Core strengths: React, Java, JavaScript, Next.js. Has led delivery for regulated and high-scale clients, owning architecture, testing, CI/CD and mentoring. Comfortable in distributed, async teams and working directly with clients.

Skills: React, Java, JavaScript, Next.js, Playwright, Node.js

Senior Frontend Engineer / Tech Lead, Trentbridge Bank (2021 - 2026). Designed and ran JavaScript/Node.js microservices for Trentbridge Bank's payments and core-banking platform, owning them from design to production. Built infrastructure-as-code and observability (dashboards, alerts, SLOs) for the platform. Mentored 4 engineers and ran internal guild sessions on Node.js. Cut error rate by 30% by reworking the Playwright layer and adding caching and async processing. Led incident response and on-call for a high-throughput service (500k+ daily orders).

Frontend Engineer, Meridian Pay (2016 - 2021). Designed and ran JavaScript/React microservices for Meridian Pay's payments and core-banking platform, owning them from design to production. Hardened security and access control for Meridian Pay, including audit logging and secrets management. Led incident response and on-call for a high-throughput service (2k req/s peak). Partnered with the Meridian Pay product team to shape the roadmap and de-risk delivery.

Frontend Engineer, Saffron Bazaar (2011 - 2016). Introduced CI/CD, trunk-based development and automated tests; deploys went from weekly to daily. Partnered with the Saffron Bazaar product team to shape the roadmap and de-risk delivery. Led incident response and on-call for a high-throughput service (1M+ daily requests). Hardened security and access control for Saffron Bazaar, including audit logging and secrets management.

Frontend Engineer, Helix Health (2005 - 2011). Drove a migration to Java with zero downtime across 500k+ daily orders. Cut build time by 20% by reworking the Java layer and adding caching and async processing. Led incident response and on-call for a high-throughput service (500k+ daily orders). Built infrastructure-as-code and observability (dashboards, alerts, SLOs) for the platform.

Projects: Scaled the catalogue service using Next.js and Playwright (1M+ users). Hardened the catalogue service using Next.js and Node.js (zero-downtime cutover).

B.Sc Computer Science, BITS Pilani - 21 years
