

# Farhan Rao

Lead Consultant - Pune - Chennai: open  
farhan.rao@paritypartners.example - 15+ yrs experience

## PROFILE

Lead Consultant with 15+ years building frontend systems across clinical data platforms and payments and core-banking. Core strengths: TypeScript, Next.js, Selenium, JavaScript. Has led delivery for regulated and high-scale clients, owning architecture, testing, CI/CD and mentoring. Comfortable in distributed, async teams and working directly with clients.

## SKILLS

Languages: TypeScript (working), JavaScript (expert)  
Frameworks: Next.js (working)  
Testing: Selenium (working)

## EXPERIENCE

### Senior Frontend Engineer / Tech Lead - Parity Partners (2022 - Present)

- Introduced CI/CD, trunk-based development and automated tests; deploys went from weekly to daily.
- Cut p99 latency by 25% by reworking the TypeScript layer and adding caching and async processing.
- Built infrastructure-as-code and observability (dashboards, alerts, SLOs) for the platform.
- Designed and ran JavaScript/TypeScript microservices for Meridian Pay's payments and core-banking platform, owning them from design to production.
- Hardened security and access control for Meridian Pay, including audit logging and secrets management.

### Frontend Engineer - Voyantis Travel (2018 - 2022)

- Led incident response and on-call for a high-throughput service (2k req/s peak).
- Introduced CI/CD, trunk-based development and automated tests; deploys went from weekly to daily.
- Partnered with the Voyantis Travel product team to shape the roadmap and de-risk delivery.
- Drove a migration to Selenium with zero downtime across 2k req/s peak.

### Frontend Engineer - Cartwright & Co (2014 - 2018)

- Drove a migration to Next.js with zero downtime across 500k+ daily orders.
- Hardened security and access control for Cartwright & Co, including audit logging and secrets management.
- Led incident response and on-call for a high-throughput service (2k req/s peak).
- Introduced CI/CD, trunk-based development and automated tests; deploys went from weekly to daily.

### Frontend Engineer - Saffron Bazaar (2011 - 2014)

- Mentored 2 engineers and ran internal guild sessions on Next.js.
- Designed and ran TypeScript/JavaScript microservices for Saffron Bazaar's e-commerce and supply-chain platform, owning them from design to production.
- Partnered with the Saffron Bazaar product team to shape the roadmap and de-risk delivery.
- Built infrastructure-as-code and observability (dashboards, alerts, SLOs) for the platform.

## SELECTED PROJECTS

- Scaled the onboarding service using JavaScript and JavaScript (40% cost saving).
- Migrated the catalogue service using JavaScript and Selenium (1M+ users).

## EDUCATION

B.E. Computer Science, VIT | Google Professional Cloud Architect
