

# Curriculum Vitae - Kavya Nanda

*kavya.nanda@paritypartners.example - Pune*

Education: B.Sc Computer Science, Anna University.

Summary. Senior Consultant with 9+ years building data systems across citizen-facing digital services and citizen-facing digital services. Core strengths: Spark, SQL, Python, dbt. Has led delivery for regulated and high-scale clients, owning architecture, testing, CI/CD and mentoring. Comfortable in distributed, async teams and working directly with clients.

Experience. Data Engineer, National Revenue Office (2023 - 2026). Introduced CI/CD, trunk-based development and automated tests; deploys went from weekly to daily. Designed and ran Spark/Python microservices for National Revenue Office's citizen-facing digital services platform, owning them from design to production. Hardened security and access control for National Revenue Office, including audit logging and secrets management. Cut build time by 30% by reworking the Airflow layer and adding caching and async processing. Partnered with the National Revenue Office product team to shape the roadmap and de-risk delivery. Data Engineer, Cartwright & Co (2020 - 2023). Partnered with the Cartwright & Co product team to shape the roadmap and de-risk delivery. Designed and ran dbt/Airflow microservices for Cartwright & Co's e-commerce and supply-chain platform, owning them from design to production. Introduced CI/CD, trunk-based development and automated tests; deploys went from weekly to daily. Mentored 3 engineers and ran internal guild sessions on Spark. Data Engineer, Greenleaf Grocers (2017 - 2020). Partnered with the Greenleaf Grocers product team to shape the roadmap and de-risk delivery. Led incident response and on-call for a high-throughput service (2k req/s peak). Designed and ran SQL/Airflow microservices for Greenleaf Grocers's e-commerce and supply-chain platform, owning them from design to production. Hardened security and access control for Greenleaf Grocers, including audit logging and secrets management.

Selected projects. Built the orders service using Airflow and dbt (1M+ users). Hardened the payments service using Airflow and SQL (1M+ users).

Skills: Spark, SQL, Python, dbt, Airflow.
