

Sandeep Reddy

Senior Consultant - Chennai - Chennai: open
sandeep.reddy@paritypartners.example - 9+ yrs experience

PROFILE

Senior Consultant with 9+ years building backend systems across payments and core-banking and booking and network platforms. Core strengths: Java, Spring Boot, PostgreSQL, AWS. Has led delivery for regulated and high-scale clients, owning architecture, testing, CI/CD and mentoring. Comfortable in distributed, async teams and working directly with clients.

SKILLS

Languages: Java (expert)
Frameworks: Spring Boot (expert)
Data & messaging: PostgreSQL (working)
Infrastructure: AWS (working)

EXPERIENCE

Backend Engineer - Parity Partners (2023 - Present)

- Partnered with the Civic Digital Agency product team to shape the roadmap and de-risk delivery.
- Designed and ran Spring Boot/Java microservices for Civic Digital Agency's citizen-facing digital services platform, owning them from design to production.
- Drove a migration to Spring Boot with zero downtime across 2k req/s peak.
- Cut error rate by 25% by reworking the PostgreSQL layer and adding caching and async processing.
- Built infrastructure-as-code and observability (dashboards, alerts, SLOs) for the platform.

Backend Engineer - Trentbridge Bank (2020 - 2023)

- Hardened security and access control for Trentbridge Bank, including audit logging and secrets management.
- Led incident response and on-call for a high-throughput service (500k+ daily orders).
- Designed and ran PostgreSQL/PostgreSQL microservices for Trentbridge Bank's payments and core-banking platform, owning them from design to production.
- Introduced CI/CD, trunk-based development and automated tests; deploys went from weekly to daily.

Backend Engineer - Helix Health (2017 - 2020)

- Partnered with the Helix Health product team to shape the roadmap and de-risk delivery.
- Led incident response and on-call for a high-throughput service (500k+ daily orders).
- Drove a migration to PostgreSQL with zero downtime across 1M+ daily requests.
- Built infrastructure-as-code and observability (dashboards, alerts, SLOs) for the platform.

SELECTED PROJECTS

- Hardened the reporting service using Spring Boot and PostgreSQL (40% cost saving).
- Hardened the payments service using PostgreSQL and Spring Boot (zero-downtime cutover).

EDUCATION

B.Tech Information Technology, VIT | AWS Developer - Associate
