

Vikram Kapoor

Senior Consultant - Hyderabad - Chennai: no
vikram.kapoor@paritypartners.example - 8+ yrs experience

PROFILE

Senior Consultant with 8+ years building frontend systems across citizen-facing digital services and payments and core-banking. Core strengths: Node.js, C#/.NET, scikit-learn, TypeScript. Has led delivery for regulated and high-scale clients, owning architecture, testing, CI/CD and mentoring. Comfortable in distributed, async teams and working directly with clients.

SKILLS

Frameworks: Node.js (learner)
Languages: C#/.NET (learner), TypeScript (expert), JavaScript (learner)
ML & AI: scikit-learn (expert)

EXPERIENCE

Frontend Engineer - Parity Partners (2023 - Present)

- Built infrastructure-as-code and observability (dashboards, alerts, SLOs) for the platform.
- Hardened security and access control for Cobalt Capital, including audit logging and secrets management.
- Designed and ran Node.js/scikit-learn microservices for Cobalt Capital's payments and core-banking platform, owning them from design to production.
- Introduced CI/CD, trunk-based development and automated tests; deploys went from weekly to daily.
- Partnered with the Cobalt Capital product team to shape the roadmap and de-risk delivery.

Frontend Engineer - Voyantis Travel (2020 - 2023)

- Led incident response and on-call for a high-throughput service (500k+ daily orders).
- Mentored 4 engineers and ran internal guild sessions on scikit-learn.
- Partnered with the Voyantis Travel product team to shape the roadmap and de-risk delivery.
- Introduced CI/CD, trunk-based development and automated tests; deploys went from weekly to daily.

Frontend Engineer - CityConnect (2018 - 2020)

- Designed and ran C#/.NET/TypeScript microservices for CityConnect's citizen-facing digital services platform, owning them from design to production.
- Introduced CI/CD, trunk-based development and automated tests; deploys went from weekly to daily.
- Cut p99 latency by 25% by reworking the JavaScript layer and adding caching and async processing.
- Built infrastructure-as-code and observability (dashboards, alerts, SLOs) for the platform.

SELECTED PROJECTS

- Scaled the catalogue service using C#/.NET and JavaScript (sub-100ms p99).
- Migrated the onboarding service using C#/.NET and scikit-learn (sub-100ms p99).

EDUCATION

B.E. Computer Science, BITS Pilani | Google Professional Cloud Architect
