

Aisha Kulkarni

Senior Consultant - Bengaluru - Chennai: no
aisha.kulkarni@paritypartners.example - 8+ yrs experience

PROFILE

Senior Consultant with 8+ years building frontend systems across payments and core-banking and e-commerce and supply-chain. Core strengths: SQL, TypeScript, Next.js, Node.js. Has led delivery for regulated and high-scale clients, owning architecture, testing, CI/CD and mentoring. Comfortable in distributed, async teams and working directly with clients.

SKILLS

Data & messaging: SQL (expert)
Languages: TypeScript (working)
Frameworks: Next.js (working), Node.js (expert)

EXPERIENCE

Frontend Engineer - Parity Partners (2023 - Present)

- Mentored 3 engineers and ran internal guild sessions on SQL.
- Cut build time by 30% by reworking the TypeScript layer and adding caching and async processing.
- Drove a migration to Node.js with zero downtime across 2k req/s peak.
- Hardened security and access control for Civic Digital Agency, including audit logging and secrets management.
- Designed and ran SQL/Next.js microservices for Civic Digital Agency's citizen-facing digital services platform, owning them from design to production.

Frontend Engineer - Cobalt Capital (2020 - 2023)

- Designed and ran TypeScript/Next.js microservices for Cobalt Capital's payments and core-banking platform, owning them from design to production.
- Led incident response and on-call for a high-throughput service (1M+ daily requests).
- Introduced CI/CD, trunk-based development and automated tests; deploys went from weekly to daily.
- Drove a migration to SQL with zero downtime across 500k+ daily orders.

Frontend Engineer - Meridian Pay (2018 - 2020)

- Hardened security and access control for Meridian Pay, including audit logging and secrets management.
- Designed and ran TypeScript/Next.js microservices for Meridian Pay's payments and core-banking platform, owning them from design to production.
- Partnered with the Meridian Pay product team to shape the roadmap and de-risk delivery.
- Built infrastructure-as-code and observability (dashboards, alerts, SLOs) for the platform.

SELECTED PROJECTS

- Hardened the payments service using Next.js and SQL (1M+ users).
- Scaled the orders service using Node.js and Next.js (zero-downtime cutover).

EDUCATION

B.Sc Computer Science, VIT
