

Divya Nair | Lead Consultant | Bengaluru

divya.nair@paritypartners.example

Lead Consultant with 11+ years building data systems across booking and network platforms and e-commerce and supply-chain. Core strengths: vector search, Airflow, SQL, Kafka. Has led delivery for regulated and high-scale clients, owning architecture, testing, CI/CD and mentoring. Comfortable in distributed, async teams and working directly with clients.

Skills: vector search, Airflow, SQL, Kafka

Senior Data Engineer, Meridian Pay (2023 - 2026). Built infrastructure-as-code and observability (dashboards, alerts, SLOs) for the platform. Led incident response and on-call for a high-throughput service (1M+ daily requests). Introduced CI/CD, trunk-based development and automated tests; deploys went from weekly to daily. Hardened security and access control for Meridian Pay, including audit logging and secrets management. Designed and ran Airflow/Airflow microservices for Meridian Pay's payments and core-banking platform, owning them from design to production.

Data Engineer, Greenleaf Grocers (2020 - 2023). Led incident response and on-call for a high-throughput service (1M+ daily requests). Designed and ran vector search/Kafka microservices for Greenleaf Grocers's e-commerce and supply-chain platform, owning them from design to production. Drove a migration to Kafka with zero downtime across 2k req/s peak. Mentored 2 engineers and ran internal guild sessions on SQL.

Data Engineer, Medora Care (2017 - 2020). Designed and ran SQL/Airflow microservices for Medora Care's clinical data platforms platform, owning them from design to production. Built infrastructure-as-code and observability (dashboards, alerts, SLOs) for the platform. Partnered with the Medora Care product team to shape the roadmap and de-risk delivery. Led incident response and on-call for a high-throughput service (1M+ daily requests).

Data Engineer, Bharat Telecom (2015 - 2017). Partnered with the Bharat Telecom product team to shape the roadmap and de-risk delivery. Built infrastructure-as-code and observability (dashboards, alerts, SLOs) for the platform. Mentored 4 engineers and ran internal guild sessions on Airflow. Designed and ran Kafka/vector search microservices for Bharat Telecom's booking and network platforms platform, owning them from design to production.

Projects: Scaled the payments service using Airflow and Airflow (zero-downtime cutover). Scaled the payments service using vector search and Kafka (zero-downtime cutover).

B.Sc Computer Science, IIT Hyderabad - 11 years
