

## Priya Mathew | Principal Consultant | Hyderabad

priya.mathew@paritypartners.example

Principal Consultant with 22+ years building backend systems across citizen-facing digital services and citizen-facing digital services. Core strengths: Kafka, Go, React, Java. Has led delivery for regulated and high-scale clients, owning architecture, testing, CI/CD and mentoring. Comfortable in distributed, async teams and working directly with clients.

Skills: Kafka, Go, React, Java

Senior Backend Engineer / Tech Lead, Parity Partners (2020 - Present). Hardened security and access control for Bharat Telecom, including audit logging and secrets management. Drove a migration to Go with zero downtime across 1M+ daily requests. Led incident response and on-call for a high-throughput service (1M+ daily requests). Partnered with the Bharat Telecom product team to shape the roadmap and de-risk delivery. Mentored 4 engineers and ran internal guild sessions on React.

Backend Engineer, Meridian Pay (2014 - 2020). Partnered with the Meridian Pay product team to shape the roadmap and de-risk delivery. Built infrastructure-as-code and observability (dashboards, alerts, SLOs) for the platform. Led incident response and on-call for a high-throughput service (500k+ daily orders). Cut p99 latency by 30% by reworking the React layer and adding caching and async processing.

Backend Engineer, Medora Care (2008 - 2014). Cut build time by 25% by reworking the Go layer and adding caching and async processing. Mentored 2 engineers and ran internal guild sessions on Go. Partnered with the Medora Care product team to shape the roadmap and de-risk delivery. Built infrastructure-as-code and observability (dashboards, alerts, SLOs) for the platform.

Backend Engineer, Cobalt Capital (2004 - 2008). Hardened security and access control for Cobalt Capital, including audit logging and secrets management. Cut infra cost by 20% by reworking the Go layer and adding caching and async processing. Drove a migration to React with zero downtime across 2k req/s peak. Designed and ran Go/Go microservices for Cobalt Capital's payments and core-banking platform, owning them from design to production.

Projects: Migrated the reporting service using Java and Java (40% cost saving). Hardened the identity service using Java and Kafka (1M+ users).

B.E. Computer Science, BITS Pilani - 22 years
