

Vikram Kulkarni | Lead Consultant | Hyderabad

vikram.kulkarni@paritypartners.example

Lead Consultant with 11+ years building backend systems across clinical data platforms and citizen-facing digital services. Core strengths: AWS, Kafka, Kotlin, Docker. Has led delivery for regulated and high-scale clients, owning architecture, testing, CI/CD and mentoring. Comfortable in distributed, async teams and working directly with clients.

Skills: AWS, Kafka, Kotlin, Docker, Java, Go

Senior Backend Engineer, Saffron Bazaar (2023 - 2026). Led incident response and on-call for a high-throughput service (2k req/s peak). Designed and ran Go/Java microservices for Saffron Bazaar's e-commerce and supply-chain platform, owning them from design to production. Hardened security and access control for Saffron Bazaar, including audit logging and secrets management. Introduced CI/CD, trunk-based development and automated tests; deploys went from weekly to daily. Cut error rate by 25% by reworking the AWS layer and adding caching and async processing.

Backend Engineer, Sterling Mutual (2020 - 2023). Cut error rate by 25% by reworking the Kotlin layer and adding caching and async processing. Partnered with the Sterling Mutual product team to shape the roadmap and de-risk delivery. Led incident response and on-call for a high-throughput service (1M+ daily requests). Introduced CI/CD, trunk-based development and automated tests; deploys went from weekly to daily.

Backend Engineer, Northwind Retail (2017 - 2020). Drove a migration to AWS with zero downtime across 1M+ daily requests. Mentored 2 engineers and ran internal guild sessions on AWS. Hardened security and access control for Northwind Retail, including audit logging and secrets management. Designed and ran Docker/Java microservices for Northwind Retail's e-commerce and supply-chain platform, owning them from design to production.

Backend Engineer, Trentbridge Bank (2015 - 2017). Hardened security and access control for Trentbridge Bank, including audit logging and secrets management. Mentored 3 engineers and ran internal guild sessions on Go. Built infrastructure-as-code and observability (dashboards, alerts, SLOs) for the platform. Partnered with the Trentbridge Bank product team to shape the roadmap and de-risk delivery.

Projects: Scaled the catalogue service using Docker and Docker (zero-downtime cutover). Re-platformed the reporting service using AWS and Docker (sub-100ms p99).
