

Vivaan Prasad

Delhi NCR | vivaan.prasad@paritypartners.example | 19 yrs

Principal Consultant with 19+ years building frontend systems across citizen-facing digital services and payments and core-banking. Core strengths: JavaScript, React, TypeScript, Node.js. Has led delivery for regulated and high-scale clients, owning architecture, testing, CI/CD and mentoring. Comfortable in distributed, async teams and working directly with clients. Skills: JavaScript, React, TypeScript, Node.js.

Senior Frontend Engineer / Tech Lead, Parity Partners (2021 - Present). Cut build time by 35% by reworking the React layer and adding caching and async processing. Designed and ran Node.js/JavaScript microservices for CityConnect's citizen-facing digital services platform, owning them from design to production. Hardened security and access control for CityConnect, including audit logging and secrets management. Built infrastructure-as-code and observability (dashboards, alerts, SLOs) for the platform. Introduced CI/CD, trunk-based development and automated tests; deploys went from weekly to daily.

Frontend Engineer, Greenleaf Grocers (2016 - 2021). Introduced CI/CD, trunk-based development and automated tests; deploys went from weekly to daily. Hardened security and access control for Greenleaf Grocers, including audit logging and secrets management. Partnered with the Greenleaf Grocers product team to shape the roadmap and de-risk delivery. Designed and ran Node.js/TypeScript microservices for Greenleaf Grocers's e-commerce and supply-chain platform, owning them from design to production.

Frontend Engineer, National Revenue Office (2011 - 2016). Built infrastructure-as-code and observability (dashboards, alerts, SLOs) for the platform. Designed and ran Node.js/JavaScript microservices for National Revenue Office's citizen-facing digital services platform, owning them from design to production. Introduced CI/CD, trunk-based development and automated tests; deploys went from weekly to daily. Mentored 4 engineers and ran internal guild sessions on JavaScript.

Frontend Engineer, Meridian Pay (2007 - 2011). Led incident response and on-call for a high-throughput service (2k req/s peak). Hardened security and access control for Meridian Pay, including audit logging and secrets management. Partnered with the Meridian Pay product team to shape the roadmap and de-risk delivery. Drove a migration to Node.js with zero downtime across 500k+ daily orders.

Selected projects: Hardened the catalogue service using TypeScript and JavaScript (1M+ users). Migrated the catalogue service using JavaScript and TypeScript (40% cost saving).

Education: B.Tech Information Technology, VIT
